LOW BACK PAIN (SI JOINT PAIN)

APPLICATION OVERVIEW
Low back pain is often caused by complications arising from the SI Joint. Though the SI Joint is not the singular cause of low back pain, attention to the joint is important in assessing and treating the pain. Athletes from all sports and people from all walks of like experience problems with the SI Joint due to its pivotal position in the body. SI Joint pain may be caused by hip misalignments, pregnancy, poor posture, or sitting for long periods of time. KT Tape helps treat this condition by relieving pressure and inflammation around the area to reduce pain.
